

## CalderParkDragracing Street Outlaws Q3 Round up

Street Outlaws Round 3 ran on another Sunday afternoon, the cars were lined up onto the highway and there were an impressive number of spectators to watch the battle continue for bragging rights continue to grow.

Daniel Sharban was the talk of Street Outlaws again in his Ford Capri, proving it had more left in it and ran an impressive 9.15 @ 148mph to take top spot off Greg Aitkens 9.24 from Round 2.

This round saw many new entrants to the series come out to fight for a spot on their representative lists. One worth noting was Luke Foley in his VH Commodore, which is fitted with a 408 LS running a single BorgWarner s480 turbo. At 15psi of boost, pump e85 in the tank and on 275 radials he ran 9.83 @ just 93mph! With his VH in the process of getting an ANDRA tech, we can't wait to see it back on the track and making his way up the list!

Daniel Neindorf ran his beautiful 1972 Dodge Challenger for the first time in Street Outlaws clocking a 11.45 @ 116mph and Super Street racer Vic Veljanovski was back with his HG Kingswood improving with an 11.66 @ 116mph. George Haddad also drove his revamped Falcon to a 10.93 @ 127mph!

Street Outlaw Mod regular Brandon Zito bought his LJ Torana out to play, improving again with a 9.72 @ 139mph, with some good reactions we predict he will be one to watch come Boxing Day!

Street Outlaws Round 4 qualifier is on "Fast Friday" locked in for the 5<sup>th</sup> of September, with warmer days approaching and cool air conditions that only means one thing..*fast times!!* Will you be there to see it??
