

FORMULA 1 AND PIRELLI: ALL THE NUMBERS FROM 2017 SEASON

Milan, December 5, 2017 – “From a record-breaking season, we have collected some record-breaking numbers. Formula 1 introduced some radical new technical regulations this year, which resulted in the fastest cars ever seen in the history of the sport. So, our mission was to build the fastest-ever tyres, 25% wider than their predecessors to cope with the massively increased cornering speeds and energy loads, which nonetheless allowed the drivers to push hard from the start to the finish of every stint. We developed these tyres throughout 2016, despite not even seeing a 2017 car until the first pre-season test at Barcelona. Over the course of this year, pole position was on average 2.450 seconds faster than in 2016, and the fastest race lap was on average 2.968 seconds quicker than last year. In spite of forces that were sometimes up to 35-40% higher than 2016 through the quickest corners, our 2017 tyres achieved all the targets established at the beginning of the season, with an optimal level of reliability and consistency. Now we look forward to next season, with an even faster tyre introduced to the 2018 range and with every compound going a step softer, which should help contribute to even more speed and spectacle in the future”.

Mario Isola, Head of Car Racing

TYRES

- Total number of tyres supplied in 2017: **38,788**
- Of these, **33,520** were supplied for race weekends and **5,268** for testing
- Of the **38,788** tyres, **25,572** were slicks and **13,016** were rain or intermediate tyres
- Total number of tyres used during race weekends: **12,920**, of which **11,532** were slick tyres and **1,388** were rain or intermediates
- Total number of tyres that were recovered: **all**
- Maximum number of kilometres driven on each compound (excluding tests):

Hard:	74 km (Esteban Ocon, Force India)
Medium:	587 km (Lance Stroll, Williams)
Soft:	4,696 km (Lewis Hamilton, Mercedes)
Supersoft:	6,261 km (Sergio Perez, Force India)
Ultrasoft:	4,674 km (Stoffel Vandoorne, McLaren)
Intermediate:	433 km (Lance Stroll, Williams)
Wet:	242 km (Felipe Massa, Williams)

PIT STOPS

- Total number of pit stops: **533** (of which **6** drive-throughs and one was a stop and go)
- This makes an average of **26.7** per race, and **1.5** per driver in each race
- Most pit stops in a race: **41** at the Azerbaijan Grand Prix
- Fewest pit stops in a race: **18** in Austria.
